Subject: RE: Grading for Ticonderoga Sidewalk

Hi Rich,

The neighbors have cited the length of the EIR Addendum (289 pages; there are also several supporting documents), and the complexity of the analysis as the main reasons for the request to extend the comment period. Steve considers a 30 day extension to June 17 to be reasonable.

<https://planning.smcgov.org/documents/highland-estates-eir-addendum>

We would continue to process the BLD permits in a standard fashion during this time.

Thanks

Hi Camille,

First, thank you for furthering that discussion.

I will give you a two-part answer:

- 1) Can you help us understand why there needs to be an extension at all? It seems that ample time was granted. Steve is very cautious, for good reason, and we are sure he will have a solid reason for considering this request.
- 2) Assuming that there is a reason other than just more general delaying tactics, (and I spoke to Jack about this before responding to you), we would agree given good cause, and assuming that all of the other processes continue without delay, we are as you pointed-out, likely not prejudiced by that extended review period running concurrent with our obligations and steps needed.

You can understand that granting another delay absent a reason, is just an invitation to yet another one down the road. If we are acting concurrent with our schedule, and not consecutive, then it might make sense to go along with this request.

Please circle back with me about why this is warranted in Steve's opinion.

Regards,

Rich

Subject: RE: Grading for Ticonderoga Sidewalk

Hi Rich,

Steve is considering extending the comment period by 30 days until 6/17. In light of the remaining steps for the Building Permit that I laid out in my email yesterday, I estimate that it would be at least 30 days until a building permit could be issued.

Please let us know if you have any concerns with a 30-day extension to the comment period.

FYI - I sent an email to the general email address on Mark Gross' company website to ask for the Architectural Plan pages.

Thank you

Hi Camille,

I do not know Mark Gross, so I will have to leave it to someone else on the team to get what you need in that regard. Thanks for letting us know about your schedule.

Can we ask that Steve let us know what he is thinking on an extension of time for the neighbors? I can't stress strongly enough how we would oppose yet another delay in this process, but would like to discuss this with Steve if he is considering granting such a request.

Regards,

Rich

Hi Jack and Rich,

I got this auto reply from Doug Macbeth. Can someone contact Mark Gross? Or just wait till the 24th for plans?

I will be out of the office from May 17, 2021 and returning on May 24, 2021. I will check my email periodically. Please contact Mark Gross if anything is needed.

Subject: RE: Grading for Ticonderoga Sidewalk

Hi Jack, Bob, and Doug,

I updated the Planning Comment letter (attached) to reflect the resubmittals made since my last review. I am missing the Architectural Resubmittal made on 5/31/18 (RESUBMITTAL # 7 - pvt - 05/31/2018 Response to PLANNING comments - Revised sheets A5, 5-1, 5-2, 5-7, 5-8). Doug, please send me these plans electronically.

Here are next steps:

- Planning:
 - o Review Architectural Plans for Lots 5-8
 - o County to make decision on Minor Modification
 - o Applicant to complete Grading Permit Hard Card (attached) with dates for grading operation/stabilization/landscaping
 - o Applicant to deposit \$20,000 for County Mitigation Monitoring (\$10,000 overdue for monitoring for Lots 9-11)
- Geo to Sign off review
- Pay Sewer Fees
- Once all agencies sign off:
 - o County to collate plans
 - o Camille to send out Construction Notice to neighbors within 200 feet of Lots 5-8
 - o Camille to send out Civil Plans for installation of Erosion Control Measures by Applicant
 - o Applicant must Pass inspection for EC Measures and send Bio Surveys to County
 - County's mitigation monitor to inspect and review surveys
- County to issue BLD Permit with Hard Card and County's Grading and Construction Requirements, Applicant to pick up Job Copy and Permit

Thanks

Hi Jack and Bob,

I wanted to provide you the status of Building Permits Lots 5-8 (BLD2016-00161 to -00164). The last resubmittal made to the cases was in Sept 2018, where the Department still relied upon hard copy plans. Now that the grading issue is being resolved, I will need to go into the office next week to plan check the last few submittals. I'll give you an update early next week on what Planning still needs.

Other Agency sign-offs that are pending include:

- Sewer: Please pay fees (please contact Ben Vazquez (copied here) for more information
- Geo: Review is pending. You should receive comments from Sherry shortly.

Thanks

Hi Jack,

Please confirm if its ok to release the civil plans associated with Lots 5-8 as soon as possible. We need to post the Admin Record prior to the end of the comment period on the Minor Modification on Monday. If plans are not made available electronically, it will take longer for members of the public to review plans (need appointment with staff) and be able to comment.

Thanks

Hi Camille,

Approximately 300 CY of the cut volume on lots 5-8 is attributed to the sidewalk.

The proposed sidewalk and roadway curb at Ticonderoga Drive in front of lots 7 and 8 were required to shift as part of the County Sanitation District's requirement for the existing sanitary sewer main trench limits to be within the roadway, and not under the proposed sidewalk. Please see attached exhibit. The offsite plans were revised to incorporate moving the Ticonderoga Drive curb and sidewalk further into the existing slope and outside the existing sewer main trench limits, which resulted in the retaining wall at the back of sidewalk with associated additional cut of approximately 300 CY. This revisions was coordinated and approved with the County Sanitation District and DPW.

Please let me know if there are any other questions.

Thanks,

JONATHAN TANG, PE

Hi Camille,

Yes, there was additional grading needed to accommodate the widened sidewalk along Ticonderoga per DPW's request. The grading associated with the widened sidewalk is included in the revised grading amounts for Lots 5-8.

Hi Roland and Jonathan,

Was there additional grading needed to provide a larger sidewalk (or something to that effect) along Ticonderoga for DPW? Is this grading included in the revised grading amounts for Lots 5-8?

As I am reviewing the Draft Addendum now, just wanted to make sure we include all the changes to grading.

Thanks

Camille
